

CATARACT CLINIC: CENTRE FOR ADVANCEMENT IN CATARACT SERVICE

**SMALL INCISION CATARACT SURGERY TRAINING
PROGRAMME**

ABOUT US

Narayana Nethralaya is a super specialty eye care hospital in Bangalore, committed to providing quality eye care and treatment of eye disorders to all sections of society. Concern for our patients' well-being and meeting their expectations is at the core of what we do. Our state-of-the-art facilities, latest treatment techniques, highly experienced and award winning eye specialists, competent staff, and certified technicians allow us to provide superior eye care for patients and attain the best possible results.

COURSE OBJECTIVE

This course is meticulously crafted to provide ophthalmologists with immersive hands-on training in Small Incision Cataract Surgery (SICS) within the operation theatre. Additionally, participants will benefit from practical wet lab sessions conducted by experienced senior cataract surgeons, ensuring a comprehensive and skill-enhancing learning experience.

HIGHLIGHTS OF THE COURSE SCHEDULE

- Optimal wet lab facility for trainees. Virtual simulators for effective concept building and better hand eye co-ordination.
- The goal is to train ophthalmologists to become highly competent and meticulous trained surgeons in SICS.
- Surgeries are supervised by senior instructors until surgeon gains confidence to perform independent surgeries.
- Post-operative review of the cases done by senior consultants.
- Every training case is recorded and discussed at the end of the session for better recall and fine tuning of techniques.
- One on one discussions on topics like biometry, dealing with complicated cases, newer IOLs etc are conducted to help you plan your patient care.
- The course encompasses comprehensive instruction on IOL selection in different case scenarios, covering Toric IOL , EDOF IOL and Multifocal lenses.
- Candidates will have regular lectures on Biometry and other Advanced imaging modalities.
- Minimum number of SICS surgeries : 25

PROGRAMME DETAILS

- 1st & 2nd week : SICS surgery under supervision in OT, along with training at the wet lab.
- 3rd week: SICS with minimal assistance.
- 4th week: Independent surgeries.
